

Jenkins Community Listening and Design Session Frequently Asked Questions

- 1. *What is the Community Listening and Design Session all about?*** The city of Jenkins is working to improve the community and our quality of life. In doing so, the city wants your input, ideas, and suggestions on how we can move forward together. The city is hosting a Community Listening and Design Session to engage citizens in a dialogue about our future.
- 2. *What areas will be discussed?*** The citizens will have an opportunity to express their ideas, thoughts, and concerns. Any of the following areas are open to discussion (but not limited to): quality of life, jobs, community efficiency, safety, infrastructure, beautification, parks, recreation, planning and development, transportation, neighborhoods, educational relationships and heritage preservation.
- 3. *If I get involved, how much time will it take?*** Your city leaders are interested in obtaining citizen input and providing information regarding the lake initiative, the new highway and town entrance, and the future of downtown Jenkins. We encourage all residents to attend this 1½ hour meeting. After the Community Listening and Design Session, you may become as involved as you want by volunteering to work on a particular idea or becoming more engaged with the leaders of your city for a longer period of time. Your city leaders welcome your commitment to be a part of this ongoing effort to preserve, protect, and improve the quality of life that citizens expect our community to provide.
