

## Forehead Thermometers

### Liquid Crystal Temperature Monitoring

**Liquid crystal forehead thermometers provide accurate core temperatures quickly and easily.**

During any illness outbreak, early fever detection not only helps prevent the spread of illnesses, it also ensures faster treatment. Liquid crystal technology-based, FDA registered forehead thermometers provide a simple, cost-effective tool for monitoring body temperature.

- Adhesive-backed paper or mylar forms
- Single or multi-use

### Prepare for the Unexpected

Forehead thermometers offer a fast, accurate way to monitor core body temperatures and take prompt preventive action. You can obtain an accurate temperature in approximately 15 seconds. It's simply a matter of watching the liquid crystal display until the colors stop changing. And since you can take temperatures non-invasively, the forehead thermometers are ideal for use with children, surgery center or quarantined patients.

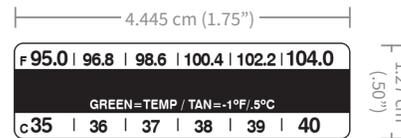

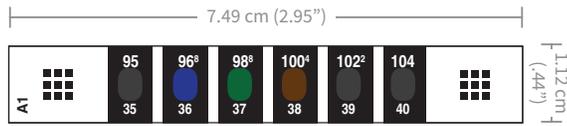

### Accurate and Effective Temperature Readings

Backed with years of proven research, manufacturing support and designed for extended shelf life, these forehead thermometers are essential elements in any pandemic, flu or emergency first aid kit.

# Forehead Thermometers

## Dimensions

### C-8702 - Dual Scale Forehead Thermometer

Response Temperature: 35°C/95°F, 36°C/96°F, 37°C/98°F, 38°C/100°F, 39°C/102°F, 40°C/104°F  
 Size: 2.95" x .44"  
 Application: reusable; non-adhesive backed

### C-8786 - Dual Scale Forehead Thermometer

Response Temperature: 35°C/95°F, 36°C/96°F, 37°C/98°F, 38°C/100°F, 39°C/102°F, 40°C/104°F  
 Size: 1.75" x .50"  
 Application: disposable; adhesive-backed

## Specifications

|                       |  |
|-----------------------|--|
| <b>Design Formats</b> | Dual Scale - Fahrenheit and Celsius<br>Non-adhesive, adhesive or hypoallergenic adhesive |
| <b>Range</b>          | Single use or reusable<br>Typically 95°F to 104°F and/or 35°C to 40°C                    |
| <b>Accuracy</b>       | +/- 1.8°F / 1°C  |
| <b>Classification</b> | Class II Medical Device  |
| <b>Shelf Life</b>     | Extended   |
| <b>Configurations</b> | Standard or Customizable   |

## Directions for Use

Thermometers should be used indoor and at room temperature (approximately 68° - 86°F). Avoid direct sunlight or strong heat when taking temperature. Do not take temperature if individual has been eating, drinking or exercising within the last 30 minutes due to the possibility of temperature fluctuation.

1. If using the disposable thermometer, remove backing.
2. Hold thermometer at both ends, pressing firmly on dry forehead for approximately 15 seconds.
3. Read thermometer while on forehead - Green: correct temperature
  - If you do not see green, blue or tan colors will appear:  
Blue: add 1°F / Tan: subtract 1°F
4. The reusable thermometer may be cleaned with a soft cloth.
