TO ALL KLC MEMBERS –

Netherland is here to serve when the times are good, and when things get crazy.

Please contact LEXSALES@NRCO.NET or call 859-255-1063 for all your safety needs. She will also be able to get you set up and take your credit card information. Right now everything is First Come, First Serve.

Mike Riley
Branch Manager, Lexington Kentucky Location.

Pre-Sat Wipes

Industry Standard Wetted Wipes

Why settle for less when you can have the best!

You want a pre-saturated wiper that will stay wet. You need a certain wipe, a certain solvent blend, and a certain concentration. Industry standard wet wipes have limits. If you want a custom-blend, you may be forced to order large quantities and because of their short shelf life you will end up wasting time and money.

Say goodbye to your wetted wipe worries with Valutek's Pre-Sat Simplified. We want to make your life easy. Simply choose the wipe, the chemistry and concentration you need and **voilà!** We'll make it today and ship it right away.

Any substrate, any chemistry, anytime!

Introducing Valutek's Pre-Sat Simplified

Our new VALUTEK® Pre-Sat wipes and resealable pail guarantee that your last wipe will be as fresh as the first. Pre-saturation enhances the wipe's absorbent capacity, effectiveness and streamlines cleaning. Our pre-sat wipes offer consistent performance for your cleanroom operations while reducing airborne contamination from solvent bottle dispensers, spray and spills. Our refillable pail containers are environmentally friendly, minimizing solvent evaporation, and reducing out-gassing. These containers are made of 100% recyclable plastic.

VALUTEK® Pre-Sat Wipes

**Valutek Pre-Sats.
Have them your way!**

Valutek Pre-Wetted Spunlace Non-Woven Wiper

Part Number: VTSNTRI

Description: Valutek's pre-wetted spunlace non-woven wiper is composed of a hydro entangled, nonwoven blend of 55% cellulose and 45% polyester with various saturation levels of isopropyl alcohol and DI water. The pre-wetted format enhances the wipers absorbent capacity, effectiveness and reduces airborne contamination from traditional solvent bottle dispensers, spray and spills. All Valutek pre-wetted wipers are assembled in a Class 10 cleanroom under Valutek inspection and strict process control to ensure Valutek quality standard and product specifications.

- Features:**
- 55% cellulose and 45% polyester blend with cold knife cut edge
 - Contains no chemical binders
 - Pre-wetted with consistent IPA/DI Water concentrations and saturation levels
 - 99.99% IPA mixed with 18 megohm DI water for unmatched assayed purity
 - Available in both reusable pail packaging and refill pack packaging
 - The pre-wet solution increases both cleaning efficiency and cleaning protocol consistency

Application: As part of the **Valutek Nanotek product family**, this product is recommended for use in a cleanroom Class 1-10 (ISO 3-4) critical environment. It is designed for use in wet cleaning of critical surfaces and products. Various IPA blend levels are ideal for removing different cleaning and disinfecting residues in regulated environments.
