

Homelessness In Kentucky: County Level Data

Shannon Catron
June 2022
Graduate Student
Eastern Kentucky University
Department of Government

Unsheltered

Individuals and families with a primary nighttime residence that is a public or private place not designed or ordinarily used as a regular sleeping accommodation for human beings, including a car, park, abandoned building, etc.

Emergency Shelter

Publicly or privately operated shelters designed to provide temporary living arrangements specifically to those experiencing homelessness. Congregate shelters, and hotels paid for by a charitable organization or by federal, state, or local programs are counted in this category.

Transitional Housing

Housing that is meant to be temporary.

<https://www.kyhousing.org/Data-Library/Pages/K-Count-Results.aspx>

Chronically Homeless

Individual who has been homeless for at least 12 months continuously, or on at least 4 separate occasions in the last 3 years where the combined occasions total at least 12 months.

<https://www.kyhousing.org/Data-Library/Pages/K-Count-Results.aspx>

FMR = Fair Market Rent

Is calculated annually by HUD and is calculated at the 40th percentile of gross rents for regular, standard quality units in a local housing market. This calculation excludes low-quality units, already subsidized units, and units that have been built in the last 2 years. This data usually comes from more recent move ins, as opposed to long term renters and it includes core utilities like water and power, but not internet.

<https://www.hud.loans/hud-loans-blog/what-is-fair-market-rent>

AMI = Estimated Area Median Income

This is calculated as household income and can be a little misleading. Homes with 2 income earners can pull this number higher and leave one income earner households at a disadvantage.

Affordable rent or housing payment=

is considered to not be more than 30% of a gross household income.

30% of AMI or Area Median Income =

Is a common formula used for determining extremely low household incomes.

McKinney-Vento Homelessness

is a term that applies to children or youth that lack a regular and adequate nighttime residence. It includes those who are sharing the housing of other persons due to loss of housing. Those sleeping in motels, emergency shelters, a public or private place that is not designed or ordinarily used as regular sleeping accommodations for children are included in this number, as well as migratory children and children awaiting foster care placement.
